FOR IMMEDIATE RELEASE

Maintenance Work on N-128 South of Nebraska City

Weather permitting, a chip seal project will begin the week of June 8 on N-128, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 0 to Reference Post 16, four miles south of Nebraska City. The work is anticipated to take six days. One-lane traffic will occur with the use of a pilot car and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
