FOR IMMEDIATE RELEASE

Maintenance Work on US-136, East of Tecumseh

Weather permitting, a chip seal project will begin the week of June 23 on US-136, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 211.3 to Reference Post 222.1, east of Tecumseh. The work is anticipated to take five days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
