FOR IMMEDIATE RELEASE

Maintenance Work on N-74 Near Tobias

Weather permitting, a chip seal project will begin the week of July 6 on N-74, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 88 to Reference Post 98, starting one mile west of Tobias and going east to the N-74/N-15 junction. The work is anticipated to take three days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
