FOR IMMEDIATE RELEASE

## Maintenance Work on N-8 Near Reynolds

Weather permitting, a chip seal project will begin the week of July 13 on N-8, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 38 to Reference Post 51, starting one mile west of Reynolds going east to the N-15/N-8 junction. The work is anticipated to take four days. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
