FOR IMMEDIATE RELEASE

Maintenance Work on N-66 South of Ashland

Weather permitting, a chip seal project will begin the week of July 27 on N-66, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 97.5 to Reference Post 100.8 south of Ashland. The work is anticipated to take one day. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
