FOR IMMEDIATE RELEASE

## Maintenance Work on Malcolm Spur S-55M

Weather permitting, a chip seal project will begin June 28 on S-55M, according to the Nebraska Department of Roads. Chip seal is an application of an asphalt binder to a roadway surface followed by an aggregate.

State maintenance forces will be doing a chip seal from Reference Post 0 to Reference Post 2.33 southeast of Malcolm. The work is anticipated to take one day. One-lane traffic will occur with the use of a pilot vehicle and flaggers. Motorists should expect to see delays and are reminded to drive cautiously through highway work zones.
